Accelerate Closing Times With a Seamless Digital Mortgage Application Experience

MeridianLink Mortgage Access is a highly configurable POS solution for mortgage origination that allows financial institutions like yours to easily build powerful, personalized borrower-facing experiences with **reduced loan-manufacturing costs, improved pull-through rates, and accelerated closing times**. Fully integrated with MeridianLink® Mortgage LOS and supported across all popular browsers and devices, its dynamic, cloud-based design elevates the borrower experience with speed, efficiency, customization, and flexible configuration options.

Slash Origination Costs While Decreasing Time to Close

Realize the benefits of comprehensive automation and remove application redundancies for a truly frictionless borrower and loan officer experience.
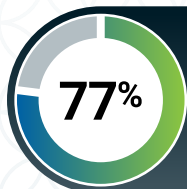

Increase Application to Decision Rates

Enrich borrower engagement with an intuitive, on-brand digital experience by configuring your POS to your unique brand and borrower needs.
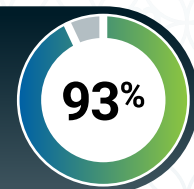

Deliver Timely Communication & Verifications

Further simplify the digital application process with on-demand communication between borrowers, loan officers, and realtors, while providing fast and accurate financial data confirmations with VOE, VOI, and VOA sourcing.

MeridianLink Mortgage Access Performance Highlights

77% On average, **77%** of applications are submitted to loan origination, and conversion rates have reached as high as **93%**. **93%**
