COSTA MESA, Calif.--(BUSINESS WIRE)-- **MeridianLink, Inc.** (NYSE: MLNK), a leading provider of modern software platforms for financial institutions and consumer reporting agencies, today announced it received the 2024 HousingWire Tech100 Mortgage Award. The MeridianLink® Mortgage loan origination system was selected as a winner based on its industry-leading configurability, innovative borrower experience improvements, and ability to help customers substantially reduce origination times and costs.

The Tech100 program, now in its twelfth year, provides housing professionals with a comprehensive list of the most innovative and impactful organizations of the year. The list can be used to identify partners and solutions that meet the challenges that mortgage lenders face every day.

"The technology capabilities and solutions that this year's Tech100 winning organizations have developed are an absolute testament to the relentless innovation within the real estate and mortgage technology landscape," HW Media Editor in Chief Sarah Wheeler said. "These past few years have been transformative for the industry and these honorees are continuing to bring long-awaited solutions to the challenges that mortgage and real estate professionals have struggled with for decades. Congratulations to all the deserving winners for their outstanding contributions to our ever-evolving industry."

Each year, the Tech100 program grows in scale and competitiveness as the demand for technology in the industry continues to increase. This was the fifth year the Tech100 program was presented in two groups — Tech100 Mortgage and Tech100 Real Estate — to highlight the innovation and achievements of organizations within both sectors.

“It is an honor to be selected for HousingWire’s prestigious Tech100 Award once again and be recognized for our innovative solutions in mortgage lending,” said JP Kelly, SVP of Mortgage at MeridianLink®. “It is a testament to the tireless work of MeridianLink employees who continuously improve our products and provide the world-class digital experiences that our customers increasingly expect and rely on.”
